

BULLETIN #126/2020 NOVEMBER 17, 2020

DEPT. OF ENERGY & EPA RELEASE 2021 FUEL ECONOMY GUIDE

REMINDER: DEALERS REQUIRED TO DISPLAY GUIDE

The United States Department of Energy and the Environmental Protection Agency recently released the Model 2020-2021 Fuel Economy Guide. This guide (and all previous guides) is available to download and print on the <https://www.fueleconomy.gov/> webpage. You can also click on this [link](#) to directly download a pdf of the report.

Dealers selling new vehicles with a gross vehicle weight rating under 8,500 pounds are required to prominently display paper copies of the guide at each location where new vehicles are offered for sale. These guides must be available for free upon customer request.

Beginning with the 2008 model year vehicles, city and highway estimates account for conditions such as higher speeds and faster accelerations, air conditioning use, and cold temperature operation. Further details regarding the determination of gas mileage (mpg) ratings are available at www.epa.gov/fueleconomy.

The annual fuel cost estimates in the electronic fuel economy guide are updated weekly to match the Energy Information Administration's current national average prices for gasoline and diesel fuel.

Paper copies of the guide are no longer mailed automatically to dealers, but you can request a paper copy of the guide by visiting: <http://www.fueleconomy.gov/feg/printGuides.shtml>.

Through the website, dealerships can also add a [fueleconomy.gov](http://www.fueleconomy.gov) widget to their website, blog, or social media site. Click the "Get Widget" button and copy the "embed" code into your blog or web page.
